The Real Winston Churchill

November 30, 2024

On the 150th anniversary of his birth in 1874, let us remember

Winston Churchill, a crypto-Jew who sold out his country

to advance the Rothschilds' program of world domination.

The Masonic Jewish central bankers contrive wars for profit,

to kill patriots and to degrade and enslave humanity.

Churchill described the Second World War as the "most unnecessary war in history."

But he served bankers in the City who had made good his stock market losses and

saved his beloved Chartwell from foreclosure. A manic-depressive, he thrived on the rush

of war and cared little for his fellow humans.

(Winston Churchill, Illuminati--Originally posted in Aug. 2005)

By Henry Makow, Ph.D.

After the first Nazi air raid on London Sept. 7, 1940 which killed 306 people, Winston Churchill remarked, "They cheered me as if I'd given them victory, *instead of getting their houses bombed to bits*." (416)

Churchill is telling the truth.

Unknown to Londoners, he had rejected Hitler's proposal to spare civilian targets. Quite the opposite, he goaded Hitler into bombing London by hitting Berlin and other civilian targets first.

Churchill told his Air Marshall: "Never mistreat an enemy by halves" and instructed his cabinet, "bombing of military objectives, *increasingly widely interpreted,* seems our best road home at present." He blocked the Red Cross from monitoring civilian casualties. (440)

Before the end of Sept. 1940, 7,000 Londoners including 700 children lay dead. By the end of the war, more than

60,000 British civilians and 650,000 German civilians died from "strategic" bombing.

In 1940, Churchill had to divert attacks from RAF airfields but he also wanted to start the bloodletting. A year had passed with little action. It was being called the "phoney war." Hitler was making generous peace offers that prominent Englishmen wanted to accept.

If Britain had made peace, there would not have been a Jewish holocaust.

Churchill described the Second World War as the "most unnecessary war in history." But he served bankers in the City who had made good his stock market losses and saved his beloved Chartwell from foreclosure. A manic-depressive, he thrived on the rush of war and cared little for ordinary people.

I realize this is not the saccharine history we are spoon-fed. What we term "history" is mostly propaganda, i.e. a cover-up.

My source for the above is David Irving's *Churchill's War* (Avon Books, 1987), which cuts through the sycophancy that characterizes most accounts of World War Two.

The Second World War was a big step in a long-term program to enslave humanity in a world dictatorship run by the Illuminati (London-based monopoly capital.)

The Illuminati start wars to increase their wealth and power and to control, reshape and brutalize humanity. Most politicians are

flunkies, con men, traitors, and criminals, packaged and sold by (banker-owned) mass media and universities.

WHO WAS WINSTON CHURCHILL?

The essential fact about Winston Churchill is that his mother's father was Leonard Jerome (formerly Jacobson, 1818-1891) a Jewish speculator and business partner of August Belmont (nee Shoenberg 1813-1890), who was Rothschild's main American representative.

Jennie Jerome's marriage to Randolph Churchill, the second son of the Duke of Marlborough, was one of convenience, typical of many unions between daughters of Jewish financiers and spendthrift British aristocrats.

Apparently, the Marlborough's objections were overcome by a dowry of 50,000 pounds, worth about five million dollars today. Nevertheless, they did not attend the wedding in April 1874 and the Duchess referred to young Winston, born seven months later, as an "upstart."

Biographers tend to describe Churchill as not quite "English" and to use Jewish stereotypes. Of Churchill's premature birth, William Manchester says: "He never could wait his turn." ("*The Last Lion*," p. 108)

Beatrice Webb recorded sitting beside him at dinner: "First impression: restless, almost intolerably so...egotistical, bumptious, shallow minded and

reactionary but with a certain personal magnetism...More of the American speculator than the English aristocrat. Talked exclusively about himself and his electioneering plans..." (John Pearson, "*The Private Lives of Winston Churchill*," 114)

Churchill's "driven" quality is attributed to the fact his parents neglected him and taught him to earn love by worldly achievements. (He also wanted to avenge his father whose political career/life was cut short by syphilis.) Winston became a successful author at age 24 and a cabinet minister at 33. His rise was assisted by his mother's intimate connections with the Rothschild circle, especially the powerful banker Ernest Cassell.

In the 1930's Churchill's banker friends made him the leading light in their lobby, "The Focus Group (http://www.fpp.co.uk/bookchapters/WSC/Waley_Cohen.html)," led by the Zionist chairman of British Shell, Sir Robert Waley-Cohen. Churchill became the main opponent of "appeasement" and eventually the main barrier to making peace with Hitler.

In 1936, Prime Minister Stanley Baldwin told a delegation led by Churchill, "If there is any fighting in Europe to be done, I'd rather see the Bolshies and Nazis doing it." But this policy was not what the Illuminati had in mind. (61)

I have already described the Illuminati as a clique/cult consisting of Jewish finance and British/America/European aristocracy (https://www.savethemales.ca/000447.html) joined by marriage, money and belief in the occult (Freemasonry.) Churchill, a Freemason, fits this description exactly.

They own vast interlocking cartels (banking, oil, pharmaceuticals, chemicals, minerals, media etc.) and control society and government through corporate and professional groups, the media, secret societies, think tanks, foundations and intelligence

agencies. Their goal is "to absorb the world's wealth" (in the words of Cecil Rhodes.)

Nations (Britain, US, Israel) movements (Zionism, Socialism, Communism) and people (Americans, Germans, Jews) are their pawns, to be sacrificed as pawns usually are, to their demented megalomaniac scheme.

According to the "Red Symphony" (href=) document, the Illuminati created Hitler to control Stalin and start a war. But it appears that Hitler alienated the bankers by printing his own money. This was a major threat to the "Revolution" (i.e. Illuminati world control.)

**"Germany's unforgivable crime before the second world war," Churchill said," was her attempt to extricate her economic power from the world's trading system and to create her own exchange mechanism which would deny world finance its opportunity to profit." (Churchill to Lord Robert Boothby, quoted in the Foreword, 2nd Ed. Sydney Rogerson, *Propaganda in the Next War*
2001, orig. 1938.**

UNANSWERED QUESTIONS

Hitler had no desire (https://www.savethemales.ca/000369.html) to fight Britain. He regarded the British as racial brothers and feared a two-front war. He made many peace overtures, promising to return European conquests and uphold the British Empire. All he wanted was a free hand against Russia.

He sent his Deputy Rudolph Hess to Britain to sue for peace in May 1941. Churchill had Hess locked away. I don't understand how Hitler didn't know that Illuminati Jewish bankers exercised decisive power in Britain. This was common knowledge in Britain (https://www.savethemales.ca/000808.html) . It makes me wonder if he was not an English agent

(https://www.henrymakow.com/hitler_and_bormann_were_traito.html) who was double-crossed.

After Hitler's invasion of Russia in June 1941, his policy toward Jews shifted from expulsion to extermination. He regarded Russian Communism as a Jewish phenomenon. Increasingly, Germany was engaged in a genocidal death struggle with the Jews.

This would not have been the case had Britain made peace, or allowed for conditional surrender. But abandoning Russia was never in the cards. Communism and Fascism were created by monopoly capital (the Illuminati) to destroy each other like the monster gorillas in a cheap Japanese horror.

FDR famously said that nothing in history happens by accident. The Illuminati's purpose in World War Two was economic, political and occult: to enrich themselves while destroying the nation states of Europe (including Britain) while sacrificing millions of lives to their god Satan.

"You must understand that this war is not against Hitler or National Socialism," Churchill is quoted as saying, "but against the strength of the German people, which is to be smashed once and for all, regardless whether it is in the hands of Hitler or a Jesuit priest." (Emrys Hughes, *Winston Churchill, His Career in War and Peace* p. 145)

The Jewish holocaust was also part of the plan, to justify the creation of the Masonic (https://www.savethemales.ca/000357.html) "Jewish" state. Bernard Wasserstein writes, "During the first two years of the war, when the German authorities bent their efforts to securing the exodus of the Jews from the Reich and from Nazi occupied territory, it was the British Government which took the lead in barring the escape routes from Europe against Jewish refugees." ("*Britain and the Jews of Europe,"* 1939-1945, p. 345)

The value of history is to remember that nothing is as it seems. It's all being orchestrated according to a plan that is centuries old. As the twilight rays of Christian civilization fade over the earth, mankind enters a period of darkness and uncertainty.

Comments for "The Real Winston Churchill "

JG said (November 2, 2018):

Thank you for this enlightening article on Sir Winston Churchill.

I was one of the many Americans who bought the royal "con job" about what a great statesman and leader Sir Winston was.

However, a lot can be learned from his well-referenced quotes here in this essay.

I believe him when he said that this was a war on the German people and not it's leaders.

Yes, like all wars, WW2 was totally unnecessary.
Ever since the American Revolutionary War it seems that all major wars that have followed were against the nations that challenged the 'City of London' banking cartel by creating their own monetary system to gain their independent sovereignty.

It's sad what has happened to England today, especially London. It's pretty much a reduced fraction of what it once was.The government, culture, and even the Royal Family has "tanked".

England has successfully lost its heritage. It once used to be a big deal to vacation in London. I even went there once myself. I'm just glad I got to visit it when it was England. You could offer me a free vacation to London today and I wouldn't go.

London is a prime example of failure and loss of identity through cultural diversity.

Brian M said (January 22, 2018):

Great article ex posing winston churchill,a fact thats gone unnoticed is that Lord Boothby
who was being supplied with young boys including the singer Cliff Richard, was in the grip pf the jews, namely the Kray twins.

Boothby was part of a sex ring that included Sir Anthony Blunt, the soviet spy, Lord Boothby was Churchills freind confidant and secretary, it was Churchill bodyguard Sgt Walter Thompson who exposed the fact that Churchill and Boothby shared these boys, and Churchill secretary Joan Bright-Astley who said Churchill was a confirmed sodomite and Boothby a vicious bi-sexual

James C said (January 22, 2018):

Way back in 1971, in his now classic book, None Dare Call It Conspiracy, Gary Allen rightly defined socialism as a movement of the economic elite to consolidate and control all of the world's resources, including human resources ("they want total control over all individual actions"). Their goal is a one-world debt-ruled superstate.

It is indeed "a plan that is centuries old." It has been effectually carried out by private and fractional reserve banking creating enormous and inextinguishable national debts, through various means such as costly and unnecessary wars, extremely overpriced and unnecessary boondoggle projects, etc. The targeted nations are forced to use their natural resources as collateral and to give up much of their sovereignty in exchange for the loans.

In his book, The Nameless War, Archibald Maule Ramsay documents how the bankers fastened their usurious and ruinous system on England, France, and Russia through revolutions which they financed. They fastened their system on the United States in 1913, and we have had nothing but costly wars ever since.

But the tide is turning. Nationalism is on the rise in Europe and the dollar is being dumped as the world's reserve currency. The World Wars were fought to prevent a Eurasian alliance and it looks as though one is taking shape. This has always been the greatest nightmare of the bankers.

Richard said (October 13, 2015):

'Nick'[below] brought up an interesting factoid to add to the list of Churchillian skulduggery, but he didn't get it right, so I've sent this to make the information coherent. ('Van Diesel' didn't invent the Diesel engine, for instance. nor was Churchill on the ship. There is a tacit Churchill connection however.)

Rudolph Diesel

(March 18, 1858 â€“ last seen alive September 29, 1913)
"Rudolph Diesel invented an engine which bears his name, which was demonstrated to run on vegetable oil, so impressed were the British government that he was invited across to Britain to sell us his engines, for updating the fleet, this would give badly needed work and prosperity to Britainâ€™s farmers, and land workers, producing vegetables for fuel.

Strangely, for a man who was about to become filthy rich, the history books say Rudolph Diesel jumped over board on the crossing and drowned. Co-incidentally of course, Rothschild, whose banks became rich loaning for Britainâ€™s wars, put his agent Winston Churchill, into the admiralty as first sea lord, to lobby for the new middle east oil based engines, which would run on oil he supplied, the purchase of the new engines would be also bought with Rothschild loans"

Nick said (October 12, 2015):

Also to be noted England controlled the high seas...oil was discovered in Iran...England was converting navy away from coal to oil ie diesel...the disel engine was patented by a German named von diesel...con diesel was bringing his patented design to england by boat in 1905 .....Winston Churchill was on that boat and the depressed German engineer committed suicide by jumping overboard.....how fortunate for england....to me it sounds like Winston made his bones in the mafia vernacular
